Summary of Eikoku Maeda Gakuen

UK Ministry of Education Approved Nursery School
Acton & Finchley Yochien

History of the school and educational policy

In 1993, Maeda Gakuen opened its door to the preschool children of the Japanese families living in the UK as the first Japanese full-day private nursery school which is approved by the British Ministry of Education, in order to meet the needs of the growing Japanese community in the UK.

As an educational goal, we set up a comprehensive educational system that balances the trinity of knowledge, emotions, and body, under which we aim to combine the Japanese educational guidelines of kindergarten education and EYFS (Early Years Foundation Stage) in the UK for early childhood education. In addition to developing important capabilities such as early childhood language skills, communication skills, expressiveness, adaptability and physical development of children, which are valued in Japan, we have a British manager in our team who has introduced early mathematical learning which is emphasised under the British education system, as well as promoting the understanding of diversity in the society. While actively incorporating elements that are required in the British education system, we cherish events unique to Japan such as entrance ceremonies, graduation ceremonies, sports day, presentations, kendo, tea ceremonies, abacus etc. to preserve the traditions of Japan.

As a Japanese nursery school, we believe that acquiring the Japanese language as a mother tongue is the foundation of learning. We have also created an environment where children are taught by a native English teacher in a fun way to help them to grow up to be global citizens.

To increase physical strength, as well as to prevent injuries and disease caused by lack of exercise for children who live in the UK where winter lasts for a long time, we have a full time PE teacher who assists children to develop fitness and encourage them to make the most of our spacious school playing field. We assess the physical fitness of year 1 children in 5 types of physical fitness measurement.

After school activities

* Football and futsal

This year marks 30th anniversary for our London Japanese Junior Football Club, which is the first Japanese football club in the UK. In addition to daily training, there are opportunities for children to take part in overseas tours. For those who prefer playing in dry environment, we have Futsal School which started in 2020.

* Abacus, Maths, and Programming classes

Children will benefit from starting STEM subjects at young age, using ipads and PCs.

* Saturday Schools

For those who live outside London or cannot attend our full time school for various reasons, we offer Saturday School and short-term courses during summer / autumn / winter school holidays. All the courses and classes are taught by our teachers, and are packed with fun activities. We also have Japanese Language classes for primary school children on Saturdays. Thus, once children have completed the Saturday Infant School, they can proceed to Primary Saturday School classes to continue their learning.

* English Language

We also run "Brighton Language College", where you can learn English language in the cosmopolitan beach side town of Brighton

Ofsted registered and inspected

As safety of the children is our utmost priority, we have had all the necessary devices such as fire alarms, smoke alarms and burglar alarms installed to meet the strict safety standards of this country since day one. Furthermore, both schools have visitor only door, and a security guard is stationed on the premises (Acton) in order to ensure the safety of children.

As well as safety of children, we place great importance on education. We are registered with Ofsted and have been inspected in 14 areas including safety, health and hygiene, safeguarding, etc. We were the first Japanese nursery school to be approved and accredited by the Department of Education in the UK. The school is currently rated "good" after the recent inspection. We pride ourselves on providing a safe and nurturing environment blessed with rich, natural surroundings. We hope the children develop a foundation for life to grow up to be global citizens for the 21st century.

Katsutoshi Maeda
Chairman

Acton Yochien & Finchley Yochien

Our Aim is to create

- Children who can adapt to different environments,
- Happy and sensitive children
- Healthy and lively children
- Kind and thoughtful children

◆ Yochien (nursery, reception and year 1) Education and Care ◆

Children have unlimited potential. With the aim of the above educational goals, our nursery education is based on EYFS, which sets standards for children's education in the UK. To optimise children's potential, we believe that each child's individuality and characteristics should be valued and their individual needs should be supported which enable them to develop independence and social skills. Through play-based nursery education, children develop healthy body and mind, and flexible thinking skills. The following four areas are our main focus when providing care and education.

Languages (Japanese & English)

We teach Japanese so that children can speak and understand it correctly when they return to Japan. We also have a full time English teacher. Making the most of living in an English-speaking country, there are English lessons and children have access to bilingual resources.

Traditions and four seasons of Japan

We celebrate traditional festivals, Tanabata, New Year, and other seasonal events throughout the year. Children learn the rich Japanese culture through fairy tales, picture books, and picture-story shows as well.

Free play and adult led activities

We provide nursery education according to the guidance of Japanese Kindergarten Education as well as OFSTED in the UK (the government agency monitoring the standard of education, which conducts inspections regularly). Based on the five areas of "Health, Human Relationship, Environment, Languages, Expression", we also value free play time to develop each child's individuality and initiative.

Cultures and social manners

As Japan and the UK have different cultures, customs and manners are different as well. Children practice courtesy and manners that they should follow as a Japanese person, and acquire good lifestyle habits. Older children have opportunities to practice Kendo (a Japanese martial art based on traditional Japanese swordsmanship) and tea ceremony, in which they learn to straighten their posture and feel calm.

◆ Pre-school (2-year olds) Education ◆

We provide childcare in a caring and relaxed environment so that children can bond with the practitioner, which will become a foundation for daily routine.

Practicing self-care

It is an important time to acquire basic lifestyle habits such as feeding, toileting, sleeping, dressing, undressing and so on. We support individual children's needs according to the level of development and growth. Children's confidence and sense of satisfaction grow and they become motivated to try new things in an environment where they feel safe and content.

Languages

Children's vocabulary increases at this age. As we speak to them gently using proper Japanese, read them stories, and play role play scenario with them, children learn to enjoy expressing themselves in words, and having conversation with others.

Play

We allocate plenty of time for free play in which they engage in the activities that they choose. Play is a vital part for the development because through play, they develop emotional stability and creativity. In the homely atmosphere that we have created, they can play with peers and practitioners, exploring various kinds of toys, learning to communicate with others.

Taking advantage of the natural and beautiful environment that the school is blessed with, we provide childcare for 2 year olds with a prospect of the following 3 years. We have a curriculum that runs through the next 36 months, along with the teaching plan that is appropriate for each age group.

Children thrive in an environment where they feel at home and when playing with peers of the same age. We also value opportunities in which children of different ages can interact with each other. They may feel inspired by older children, or learn to help and care for younger children, which help them to grow up to be an individual with empathy.

We would like parents to use our school as a place where they can exchange information, share any parenting concerns and communicate with one another. We hold classroom observations and teacher-parents group meetings to provide parents with opportunities to observe and discuss the progress of the children in the school setting. We believe working in partnership with the parents is essential in supporting the children to develop and progress further.

Acton Yochien & Finchley Yochien

Please entrust us with the care of your child as it is the important stage of their development.

We are a Japanese kindergarten approved by the UK Department of Education. Our school calendar is filled with traditional Japanese events while incorporating merits of British education.

1 All the class teachers are qualified as kindergarten teacher/nursery practitioner in Japan. The head teacher and all the staff, who are youthful and enthusiastic work together to provide high quality care and learning for children.

2 Fun events include sports day, summer festival, Halloween party, productions, etc.

3 The school bus (Finchley only) operates without staff on board. Please contact the school office for details.

4 School Lunch
Japanese style school lunch is served 3 days a week. If you wish your child to have school lunch, please contact the school office. There is daily milk time.

5 Physical Education
Physical education includes activities such as iron bars, football, obstacle boxes, mat exercise, skipping rope, etc. It is vital for later life for children to build physical fitness and acquire flexibility from an early age. Physical education also plays vital role for nurturing healthy mental development

6 English
The first step in English conversations for children is familiarising themselves with the language. Acquiring the correct pronunciation and accent will be a great asset when they return home.

7 Library
In the Library, we have a wide range of Japanese picture books which include traditional folk stories as well as well known Western fairy tales. Both English and Japanese books are displayed and organised for different age groups. We introduce books that are recommended for each age group.

8 ICT for children that meet the needs of the times.
Children enjoy learning with a variety of software, like playing games, with PCs and tablets equipped in each classroom, with which children can prepare themselves to move up to the primary school. We use tablets during the English lessons. An electronic blackboard has been introduced in Acton.

9 Tea ceremony
During the tea ceremony, children sit on tatami, with calm mind and good posture. They experience a taste of Wabi-Sabi.

After school activities for children of the full-day nursery school

● **Gymnastics club** (reception and year 1)

It is important for children to think for themselves and move their bodies on their own rather than being instructed what to do when exercising. For example, playing tag is one of the best plays for children in terms of use of the mind and brain at the same time, as they desperately run around to try not to get caught. We aim to assist children's healthy growth by encouraging them to discover the joy of exercising. A letter that contains detailed information will be sent out each term.

● **Football club** 'Wanpaku strikers' (Reception and Year 1)

Children can join the London Japanese Junior Football Club (LJJFC) run by the school and participate in the weekly training sessions at Acton Yochien grounds (see p8).

● **Abacus academy** (Acton Year 1 and above)

We have started the abacus lessons which has been drawing attention recently. We run lessons in the way which children can familiarise themselves with abacus while having fun. A letter that contains detailed information will be sent out each term.

● **Enjoy English** (Reception and above)

To meet the request that children want to learn to speak and sing in English in a fun environment, 'Enjoy English' lessons have been introduced. We aim that children get familiar with English through more listening and speaking. Details will be announced in each term.

● **Maths Master Course** (Year 1 and above)

Children can have more advanced arithmetic lessons. They learn the concept of numbers, addition and subtraction, shapes, how to read time, length and area. Details (date, time, cost) will be announced by letter in each term.

● **Junior programming course** (Year 1)

Star Programming School in Japan has opened its London branch at Eikoku Maeda Gakuen. We teach programming using simple programming software designed for young children. Students will learn to code and create games and animations on iPad. They will then proceed to learn programming to control a robot.

www.star-programming-school.com

- These are theme-based courses which are packed with action and fun.
- The details for these courses (fees and themes) will be announced by letters and on our website.

Acton Yochien, Finchley Yochien FAQ

Q : What are the commutable areas to the school?

A : There are Finchley Yochien located in North London which serves postcode N, NW etc and Acton Yochien situated in west London which is commutable from W, NW, SW etc.

Q : Is there a school bus available?

A : The school bus operates between NW area and Finchley Yochien (NW3,6, 8, 11). Please contact the school office for more information.

Q : Is there a PTA ?

A : We request a few parents to work as class reps in case of emergency who can call the emergency phone tree.
(Some Year 1 parents volunteer to create a yearbook)

Q : What items should I prepare before my child start school?

A : You will need to purchase the school uniform (blazer). Other items such as indoor shoes, lunch set (cup, chopsticks, spoon, fork, lunch box, wet cloth), water bottle (water or barley tea only), additional bag, school bag are not specified by the school. Items that you already have can be used. Some items including indoor shoes, bag for indoor shoes, lunch box, case for wet cloth, yukata (cotton kimono for summer festival), jinbei (Japanese home wear), smock for arts and crafts, picnic sheet, cloth training pants may not be available in UK.
*Any shoes purchased in UK can be used if children can easily slip them on and off.

Q : What are the term dates and holidays?

A : The school operate on a trimester system, which is the same system in Japan. The main holidays are half term in each term, summer holiday, winter holiday, and spring holiday. The school is closed on UK public holidays

Q : Why are there separate fees for short courses?

A : Our short courses are run separately from the normal courses. We run action packed theme-based courses which children who go to local English schools can participate in.

Q : How do I make payments?

A : The school will send an invoice. Once you have received it, please pay by bank transfer by the day before the entrance day (first day). Please contact the school office if you wish to pay in instalments.

Q : What is the class size?

A : Our class size are 16-25 pupils depending on which classroom is used and how many staff we need.

Q : Can my child transfer between the schools?

A : As long as there is a place available, they can transfer from one school to another at any time.

Q : Is there a waiting list?

A : Some classes have a waiting list. We recommend that you put down your child's name early.

Saturday School

The classes for children who attend English schools

Some parents may have concerns about their children's manners and language if they go to an English school. Others may welcome the opportunities for their children to experience the Japanese school life. We run the Saturday School in order to meet such interests and needs.

Our Saturday School aims to provide opportunities for children to familiarise themselves with Japanese language and culture through 'learning and playing'. Taking account of the environment and ability of Japanese language of the individual children, we run lessons where children can build confidence in Japanese while having fun.

We teach children the four fundamentals of Japanese, which are reading, writing, speaking, and listening'. In addition to the basic teaching materials, we also use our original materials to suit the ability of each child.

In addition, we introduce Japanese children's songs, and seasonal events as well as offering opportunities to experience Japanese culture such as calligraphy and tea ceremony. Children also enjoy interacting with their peers and playing in our spacious school grounds during PE lesson/play. Children are welcome to borrow books from our library which boasts with a wide range of Japanese books. Once your child has completed the Year 1 class, they can proceed to the Saturday primary school classes in Finchley to continue learning. Please make an appointment if you would like to visit us.

- Time 09:00 - 12:00
- Registration fee £ 50 (valid for 1 year after postponing for the first time)

LONDON JAPANESE JUNIOR FOOTBALL CLUB (LJJFC)

www.ljjfootball.co.uk

This year, the London Japanese Junior Football Club marks 30 years as the first Japanese junior football club in the UK which is the birthplace of football. Currently, nearly 100 boys and girls train on 3 grass football pitches in Acton Yochien.

In the past, LJJ worked in partnership with Chelsea FC, a prestigious Premier League club, and incorporated their coaching methods into LJJ's coaching. In addition, with the support of the International Sports Academy (ISA), a UK-based organisation that supports study abroad programmes in Germany and the Netherlands, motivated coaches and players from Japan are also working with our players. We also work in partnership with the top football academy in Croatia, and our players can take part in overseas tours (Italy, Germany, Spain and Belgium, etc). There are many opportunities available to play top level football. Furthermore, our teams have enjoyed excellent results: the U8s won the European Japanese Football Tournament in Germany in 2015/16, the U10s were runners-up in 2017 and 2019, the U12s won in 2022, and the U8s/U10s won and the U12s were runners-up in 2020 at the Winter Games in Belgium. The children's individuality and independence can be further developed through their interactions with various people. Through these activities, children who are motivated and competitive not only in football, but also behave as a role model in day to day life to others have opportunities to participate in the Academy classes, and may be able to obtain scholarship which exempts or reduces fees. Furthermore, our senior football team which is formed mainly by the parents of LJJFC and the other team which consist of secondary school students and other members of the public, are as passionate as our junior players about football and commit themselves to training and matches.

Summary of LJJFC

- Office Eikoku Maeda Gakuen Finchley Yochien
- Age 1st grade in Japanese primary school (age 6-7) - 15 years old (as of 1st February 2020)
※4-6 year olds (Wanpaku strikers)

Kids' Abacus Academy

At Eikoku Maeda Gakuen, we started the abacus class in 2011. Abacus has long been used in Japan as a tool to understand the concept of numbers. In addition to be quicker at calculation, and stronger at mental arithmetic, it helps greatly the development of children as it stimulates both right and left parts of the brain. Abacus is also very helpful in comprehensively understanding numbers. We aim to develop their understanding of numbers and teach in the way that's easy to understand for every child.

Summary of Abacus Academy

JAPANESE CLASSES FOR PRIMARY SCHOOL CHILDREN (FINCHLEY)

This course is designed for children who want to learn Japanese as a second language, and aims to support children who may find it difficult to keep up with the lessons in the Japanese Saturday School, or may feel overwhelmed with the amount of home work they are given from the school. Children will be taught in a small class of approximately 10 pupils by teachers with extensive experience and knowledge in education so that they can build confidence in their Japanese.

We understand that it is a challenge for children who go to local schools to learn Japanese. However, it would be our pleasure to assist them to learn Japanese in a Japanese school setting where they can enjoy talking and playing with friends in Japanese. If you would like to visit us, please contact us in advance.

- Day & Time Saturday 09:00 - 12:00
- Enrolment fee £ 150
- Lesson fees £ 430 / 1st term
 £ 460 / 2nd term
 £ 360 / 3rd term
- Payment Method Please pay by bank transfer by the first lesson. Refer to p13 for more details.
- Age Grade 1, 2, 3, 4, 5 & 6 Japanese primary school (Born between 2nd Apr 2011 - 1st Apr 2017)
- Japanese ability at enrolment Children who are still learning reading and writing hiragana. (Children will take a test before enrolment.)
- Withdrawal If you wish to withdraw your child from the course, please inform us 4 lessons prior to the withdrawal date. No refund will be made for lessons after withdrawal. If your child is taking a leave for more than 1 month, please consult us.

STAR PROGRAMMING SCHOOL LONDON BY EIKOKU MAEDA GAKUEN

www.star-programming-school.com

In this course, children will create arithmetic problems, games, and animation on a tablet using a programming language called Scratch Junior (Scratch is designed and maintained by the MIT Media Lab). Children learn mathematical and computational ideas that are built into the Scratch experiences. In the second half of the term, they will have a chance to program a robot. Programming is now a compulsory subject in the primary school curriculum. This course was selected to promote programming education for young people for the second year in a row.

FUTSAL SCHOOL LONDON JAPANESE JUNIOR FOOTBALL CLUB (LJJFC)

We are the first Japanese futsal school in the UK. At Eikoku Maeda Gakuen Futsal School, an active player from the FA-accredited Futsal League (Maeda Gakuen staff) and experienced coaches are working together to teach effective skills and techniques as well as ways of thinking that can be useful in actual games. Learning to play futsal will not only improve their skills of futsal but also allow children to stimulate and develop many skills and proficiencies that are transferrable to the 11 a side game. As lessons are structured to improve athletic abilities and quick decision making skills, children who feel that they are not as able at exercise can also participate. Both boys and girls are welcome.

Summary of the Futsal School

(Lesson fees vary depending on how many lessons in each term)
- Payment method Please pay by bank transfer. See p13 for more information.
- Withdrawal If you wish to withdraw your child, please inform us 3 lessons prior to the withdrawal date. No refund will be made.

Benefits of indoor training

In wet English weather, indoor training at our Futsal School offers the following benefits for parents.

- ◎ As we train in an indoor hall, exercise clothes will not get dirty.
- ◎ Lessons will not be cancelled due to bad weather.
- ◎ Parents can watch games in a warm comfortable place.

Payment details

● Procedures for enrolling Acton & Finchley Yochien

● Procedure for enrolling Saturday school & Japanese class for Primary School children

● Procedure for enrolling LJJ football club

● Procedures for enrolling the short courses (Summer, Autumn, Winter)

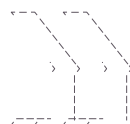

For all the schools, clubs and courses

- 1) Please fill in the registration form and send it to the respective school. Enrollment fee should be paid in at the same time by bank transfer.
- 2) Please note that the account name and number are different depending on the course in which you wish to enroll.
- 3) A discount is available when you sign up your child for more than 1 club or course, or if siblings sign up at the same time.
- 4) Your child can start the course at any time as long as there is a place available. As some classes may have a waiting list, we recommend that you apply for a place in good time.
- 5) Please call the school office to arrange a visit. Further information can be obtained from the school office.
